

50 søknader om å bli nasjonalt senter på kunstig intelligens

- AI ANTHROPOCENE – Multimodal Artificial Intelligence for identifying effective responses to the interconnected climate and nature crises
- AI Centre for Autonomous Experimentation (AI-CAX)
- AI centre for sustainable resource management
- AI Centre for the Empowerment of Human Learning
- AI Democratization for Human Development (HAIDe)
- AI for Nature: advancing sustainable ecosystem management with vision, reasoning, and action
- AI for Quantum for AI
- AI for Smart Energy
- AI Research Centre for National Security
- AI RISK: Center for the Analysis and Mitigation of Societal Risks from AI
- AIDEAL - Industrial AI to increase efficiency, reliability and value generation in the energy and ocean sectors
- AMIVE - Autonomous Multi-agent based systems: challenges with Interoperability, Verification&validation and Explainability
- AR:KI Centre for Responsible and Equitable AI through Education Norsk: Senter for ansvarlig og rettferdig KI gjennom utdanning
- BONXAI - Bio-inspired AI for Competent Learning
- Center for Beneficial AI: AI for public sector and citizens
- Centre for AI-Based Societal Decision Support
- Centre for Artificial Intelligence in Healthcare
- Centre for Public Sector Artificial Intelligence / Senter for offentlig sektor kunstig intelligens (SOSKI)
- Centre for Quantum Technology and Artificial Intelligence (QAI)
- Centre for Socially Empowered AI Research
- "Centre for Societal Consequences of Artificial Intelligence - Senter for samfunnskonsekvenser av kunstig intelligens (SESAM)"
- Digital Learning Communities Artificial Intelligence Centre: Centre for Research on AI in education, defence, police and health sector
- eXplainable AI for Multi-Scale (X-AIMS)
- iKnowAI – Centre for Interdisciplinary Research and Knowledge Integration in AI
- Insight: New AI Methods for Innovative Uses of Public Data
- KI-INDUSTRI - Multi-agent AI for Regenerative Industry and Society
- MishMash - Center for AI & Creativity
- NCU - Norwegian Centre for the Unknown
- NEXTMAP: A national AI research center for next-event prediction
- North Star Centre for AI
- Norwegian Center for Artificial Intelligence Security and Safety (nAIss)
- Norwegian Center for Language Modeling
- Norwegian Center on AI Foundation Models
- Norwegian Centre for Embodied AI (NCEI)
- Norwegian Centre on AI for Decisions

- Norwegian Centre on General-purpose Artificial Intelligence: Operational AI for the physical world, robots, and industrial processes
- Norwegian research centre for psychologically informed artificial intelligence
- Norwegian Research Centre on Children and Artificial Intelligence
- Ocean of Artificial Intelligence
- PAIX - Peace and Artificial Intelligence centre of eXcellence
- Physics-accelerated AI Research at the Exascale
- RAISE-UP: Centre for Accelerating AI Advances for the Earth System and Society
- Research Center AI for Business and Society
- Research Center for Social Conditions, Consequences and Co-Creation of AI
- Responsible Innovation, Society & Ethics
- Senter for Miljø, Samfunn og Kunstig Intelligens / Centre for Environment, Society and Artificial Intelligence
- Sustainable, Risk-averse and Ethical AI
- System Support for AI
- The Tsetlin Machine Centre: Pioneering Green, Scientific, and Democratic AI for Transformative Innovation
- TRUST - The Norwegian Centre for Trustworthy AI
